
CONTENTS

(JUNE 2026)

(pages 57-63)

Impact of cross-border traffic and migration on road traffic safety systems in Poland

Piotr Gorzelanczyk

(pages 64-74)

Digital value chain with cognitive technologies: a conceptual framework and small-scale prototype

Maksym Karakai, Daniel Bobko, Reinhard Bernsteiner, Lucia Knapčíková

(pages 75-84)

Advancements in sustainable public transportation systems: a systematic review

Mohamed Ali Farah, Hassan Ahmed Mohamed Jakuula

(pages 85-94)

Smart infrastructure modeling

Bonniga Ravinder

(pages 95-106)

Optimization of task scheduling and sequencing operations in multi robot assembly line using Hybrid GA - SA algorithms in Industry 5.0 context

Panneerselvam Sivasankaran

(pages 107-110)

Applications of VSELP coding in US patents

Muhammed AL-Rawi

(pages 111-114)

3D cultivation of mesenchymal stem cells on polylactide scaffolds

Martin Polák, Jana Čajková, Marianna Trebuňová, Darina Bačenkova
